

To Whom It May Concern,

March 30, 2017

I am pleased to provide this reference for Steve Bianco and Infinity Physician Resources. Steve has helped us successfully recruit a number of physicians in “hard to fill” positions at Allegan General Hospital.

What separates Infinity from the competition is their thorough, comprehensive attention to detail. The opportunity and community profile they prepared for our search was extremely impressive. The candidate dossiers contained an incredible amount of professional and personal information that truly provided a working knowledge of the candidates prior to their visit. Their candidate screening was meticulous and every candidate they presented was well suited for our position and our community.

Steve also provided an extraordinary level of direction, expertise, and guidance throughout the process while never forgetting that we were the client and that the ultimate decision maker. Having worked in the hospital industry for close to 40 years and having been involved in many physician recruitment projects I can honestly say that Steve is the best recruiter I’ve worked with.

Needless to say, I am very impressed with Steve Bianco and Infinity Physician Resources and will be using their services for all future recruitment initiatives.

If you would like more information regarding our experiences with Infinity please feel free to contact me.

Sincerely,

Gerald J. Barbini  
CEO/President
